CENTRACOMM[↑]
Trusted to secure and manage high-performance networks.

Why We Are Successful

We continue to expand every year due to the key differentiators we have in the marketplace:

WE ARE PARTNERS, NOT BOX-PUSHERS

We grow long-lasting relationships with our customers by providing on-going value and forward thinking ideas. We don't lose clients, but if we do, they come back.

WE ATTRACT "THE BEST IN THE MIDWEST"

Many of the most highly trained and experienced engineers in the industry can be found in our company. When you execute a project with CentraComm, you're tapping into engineers who have certification rankings in the top 200 in the world.

WE PROVIDE AS MUCH OR AS LITTLE AS YOU WANT

We offer fully managed solutions or co-management which provides your team a "backstop" and training partner.

WE'VE MASTERED LOGISTICS AND CUSTOMS

We are the experts at logistics, both domestic and international. No matter the border or the customs regulations, we've shipped and implemented technology there.

What We Do Better

We provide best of breed products and services that allow IT organizations to maintain a high-performance network and broaden their security posture. Our services include both professional and managed services, networking and security solutions, compliance services, cloud services and more.
